

### Fleet Maintenance Software

⊕ **Simple - Powerful - Inexpensive**

Thank you for your interest in FLEETMATE!

Join the thousands that have discovered a better way to manage fleet maintenance. Whether you have 5 service vans, 150 patrol cars, or a mixed-fleet of 1,500 assets, FLEETMATE will help you maintain your fleet properly. This is full-featured fleet maintenance software that helps you keep PM up to date. And it keeps your service, fuel, and expense data organized and easy to access. All at a cost that makes sense. It's powerful, yet easy to use. And it costs less than you might think.

#### Try it FREE for 30-days!

It's often difficult to determine if a product will meet your business requirements unless you can try it first. We understand, and that's precisely why we offer FLEETMATE as a free download. The unlicensed software is the actual commercial product, and it will remain fully functional for 30-days. This way, you can determine first-hand whether FLEETMATE will be a good choice for you and your business.

FLEETMATE comes with some sample data pre-loaded. But feel free to enter your own fleet data, so that you can see exactly how things work. All data that you enter remains in your database, and is yours to keep.

Visit the FLEETMATE Website for **Instructional Videos** to help you get started. And view and print the **FREE Customer Guides** on the Support page. These resources will help you get up-and-running quickly.

### *The Better Way to Manage Maintenance*

#### Single User License

Capacity	Price
Up to 50 Assets	<b>\$399.95</b>
Up to 100 Assets	<b>\$599.95</b>

**UNLIMITED INSTALLATIONS**  
Pricing is in U.S. Dollars. One-time fee for any number of PC installations. Simply select the asset capacity you need. Includes support and periodic updates.

#### **NEW!** Subscription

Capacity	Annually
Unlimited Assets	<b>\$599.95</b>

As above, but featuring a budget-friendly annual subscription option. Unlimited installations and free routine support.

#### **MULTI-USER NETWORKING**

FLEETMATE provides network capability built-in. There is no additional charge.

#### **WIDE AREA NETWORKING**

FLEETMATE is compatible with remote access systems such as Windows Terminal Server.

### Benefits

#### Maximize Asset Availability

Reduce unexpected, time consuming, and costly downtime and repairs. Keep your fleet in-service, on the road, ready for business.

#### Reduce Maintenance Costs

FLEETMATE helps you minimize costly breakdowns and repairs by keeping your vehicles and equipment properly maintained. PM is done **On Time – Every Time**.

#### Extend Asset Life

Proper, consistent preventive fleet maintenance helps you extend the useful life of your vehicles and other fleet equipment. This can also maximize resale value.

#### Improve Operational Efficiency

With FLEETMATE you can reduce your use of paper. This reduces the effort required to prepare, update, and retrieve physical documents. And it avoids misplaced information.

#### Fast 24/7 Access to Essential Fleet Data

Respond quickly to inquiries with timely, accurate fleet service and cost information. With FLEETMATE, vital fleet information is **at your fingertips**.
