

Fleet Maintenance Software

⊕ **Simple - Powerful - Inexpensive**

Join the thousands that have discovered a better way to manage fleet maintenance. Whether you have 5 service vans, 150 patrol cars, or a mixed-fleet of 1,500 assets, FLEETMATE will help you maintain your fleet properly. This is full-featured fleet maintenance software that helps you keep PM up to date. And it keeps your service, fuel, and expense data organized and easy to access. All at a cost that makes sense. It's powerful, yet easy to use. And it costs less than you might think.

Try it FREE for 30-days!

It's often difficult to determine if a product will meet your business requirements unless you can try it first. We understand, and that's precisely why we offer FLEETMATE as a free download. The unlicensed software is the actual commercial product, and it will remain fully functional for 30-days. This way, you can determine first-hand whether FLEETMATE will be a good choice for you and your business.

FLEETMATE comes with some sample data pre-loaded. But feel free to enter your own fleet data, so that you can see exactly how things work. All data that you enter remains in your database, and is yours to keep.

Visit the FLEETMATE Website for **Instructional Videos** to help you get started. And view and print the **FREE Customer Guides** on the Support page. These resources will help you get up-and-running quickly.

The Better Way to Manage Maintenance

Single User License

Capacity	Price
Up to 100 Assets	\$499.95
Unlimited Assets	\$799.95

Pricing is in U.S. Dollars. Prices indicated are for one (1) registration key. The number of registration keys that you need is determined by the number of concurrent users that you need to support.

Office License

Capacity	Price
Up to 100 Assets	\$1499.95
Unlimited Assets	\$2499.95

UNLIMITED NETWORK USERS

Pricing is in U.S. Dollars. An Office License provides you with the flexibility to use FLEETMATE on any number of PCs throughout your entire organization for one fixed fee. And you are licensed for the optional Report Designer and Work Order Retrieval products at NO ADDITIONAL CHARGE. Simply select the asset capacity you need.

MULTI-USER NETWORKING

FLEETMATE provides network capability built-in. There is no additional charge.

WIDE AREA NETWORKING

FLEETMATE is compatible with remote access systems like Terminal Server, Citrix®, and GoToMyPC®.

Benefits

Maximize Asset Availability

Reduce unexpected, time consuming, and costly downtime and repairs. Keep your fleet in-service, on the road, ready for business.

Reduce Maintenance Costs

FLEETMATE helps you minimize costly breakdowns and repairs by keeping your vehicles and equipment well maintained. PM is done **On Time – Every Time**.

Extend Asset Life

Proper, consistent preventive fleet maintenance helps you extend the useful life of your vehicles and other fleet equipment. This also maximizes resale value.

Improve Operational Efficiency

With FLEETMATE you can reduce your use of paper. This reduces the effort required to prepare, update, and retrieve physical documents. And it avoids misplaced information.

Fast 24/7 Access to Essential Fleet Data

Respond quickly to inquiries with timely, accurate fleet service and cost information. With FLEETMATE, vital fleet information is **at your fingertips**.
